CONSULTATIONS OR CIRCULATION CONSULTED

INTRODUCTION

R. L. POLK & CO. OF CALIFORNIA, publishers of the Monrovia, Arcadia, Duarte Directory, as well as many other city and county Directories, present to subscribers and the general public, this the 1954 edition of the Monrovia, Arcadia and Duarte Directory. A new feature of this edition is the telephone number following the name in Householders section.

Confidence in the continued growth of the communities' wealth and population, and in the advancement of municipal and social activities, will be created as sections of this Directory are consulted, for the Directory is a mirror truly reflecting the community to the world.

The enviable place occupied by R. L. POLK & CO.'S Directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Monrovia, Arcadia and Duarte Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The several essential departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns of Monrovia is included in pages 21 to 337, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Monrovia and vicinity, and the name, official personnel, nature and address of each firm and corporation. A similar list for Arcadia is included in pages 343 to 680, and Duarte in pages 683 to 796.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Monrovia, covers pages 797 to 906, on pink paper. In this section the numbered streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes. Telephone numbers as supplied to us on canvass are shown opposite the name. A similar section for Arcadia appears in pages 907 to 1032, and Duarte, pages 1033 to 1075.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 64, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Monrovia, Arcadia and Duarte. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. In ambitious and progressive communities like Monrovia, Arcadia and Duarte the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1141 to 1218, on canary paper. This department lists the various manufacturing, mercantile and professional interests of Monrovia, Arcadia and Duarte in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays no small part in the daily activities of the commercial and professional world. More goods are bought and sold through the Classified Business Directory than through any other medium.

THE NUMERICAL TELEPHONE DIRECTORY for Monrovia, Arcadia and Duarte appears opposite page 1220, on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence and as a business location. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of the community, for business men, everywhere, realize that the City Directory represents a community as it really is.

The Directory Library

Through the courtesy of the publishers of the Monrovia, Arcadia and Duarte Directory, a Directory Library is maintained in the offices of the Monrovia Chamber of Commerce for free reference by the general public. This is one of the more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R—ecreation of mountains, beaches and cities at command.

O—ver the famed paved boulevards, or by interurban bus service.

V—aried interests in the social, church and civic affairs of a progressive city.

I—nviting prospects for investment in homes, industries or land.

A—nalysis will show MONROVIA second to none in homes, schools, church and social life, and a progressive business spirit.

Monrovia is located 18 miles northeast of Los Angeles on Foothill Boulevard, a part of the National Old Trail, at the base of the Sierra Madre Mountains overlooking the San Gabriel Valley and Highway 66. The elevation is from 450 to 1,200 feet, with an estimated population, as of Jan. 1, 1954 of 28,000 people.

Monrovia is on the main line of the Santa Fe, a branch line of the Southern Pacific and the Pacific Electric busses. Location, transportation, reasonable real estate values, ideal living conditions, excellent educational facilities and an adequate supply of labor, make Monrovia exceptionally well adapted for homes or industries.

Monrovia is internationally known as a health resort, and is the home of the Pottenger Sanatorium, famous for its successful treatment of tuberculosis.

A Chamber of Commerce that is well equipped and glad to be of service to visitors, and to its community, will furnish specific information upon request.

You don't buy a membership in the Chamber of Commerce—you buy cooperation of the most able business men in town.

Big business men, men of national and international influence are strong believers in the importance of the functions of a Chamber of Commerce and the invaluable service which it renders to business and the community as a whole. We hear these men of prominence continually testifying by deed and word to the value of organized community cooperation.

A STATEMENT
OF ADVERTISING PRINCIPLES

1. **Good Advertising**—aims to inform the consumer and help him to buy more intelligently.

2. **Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

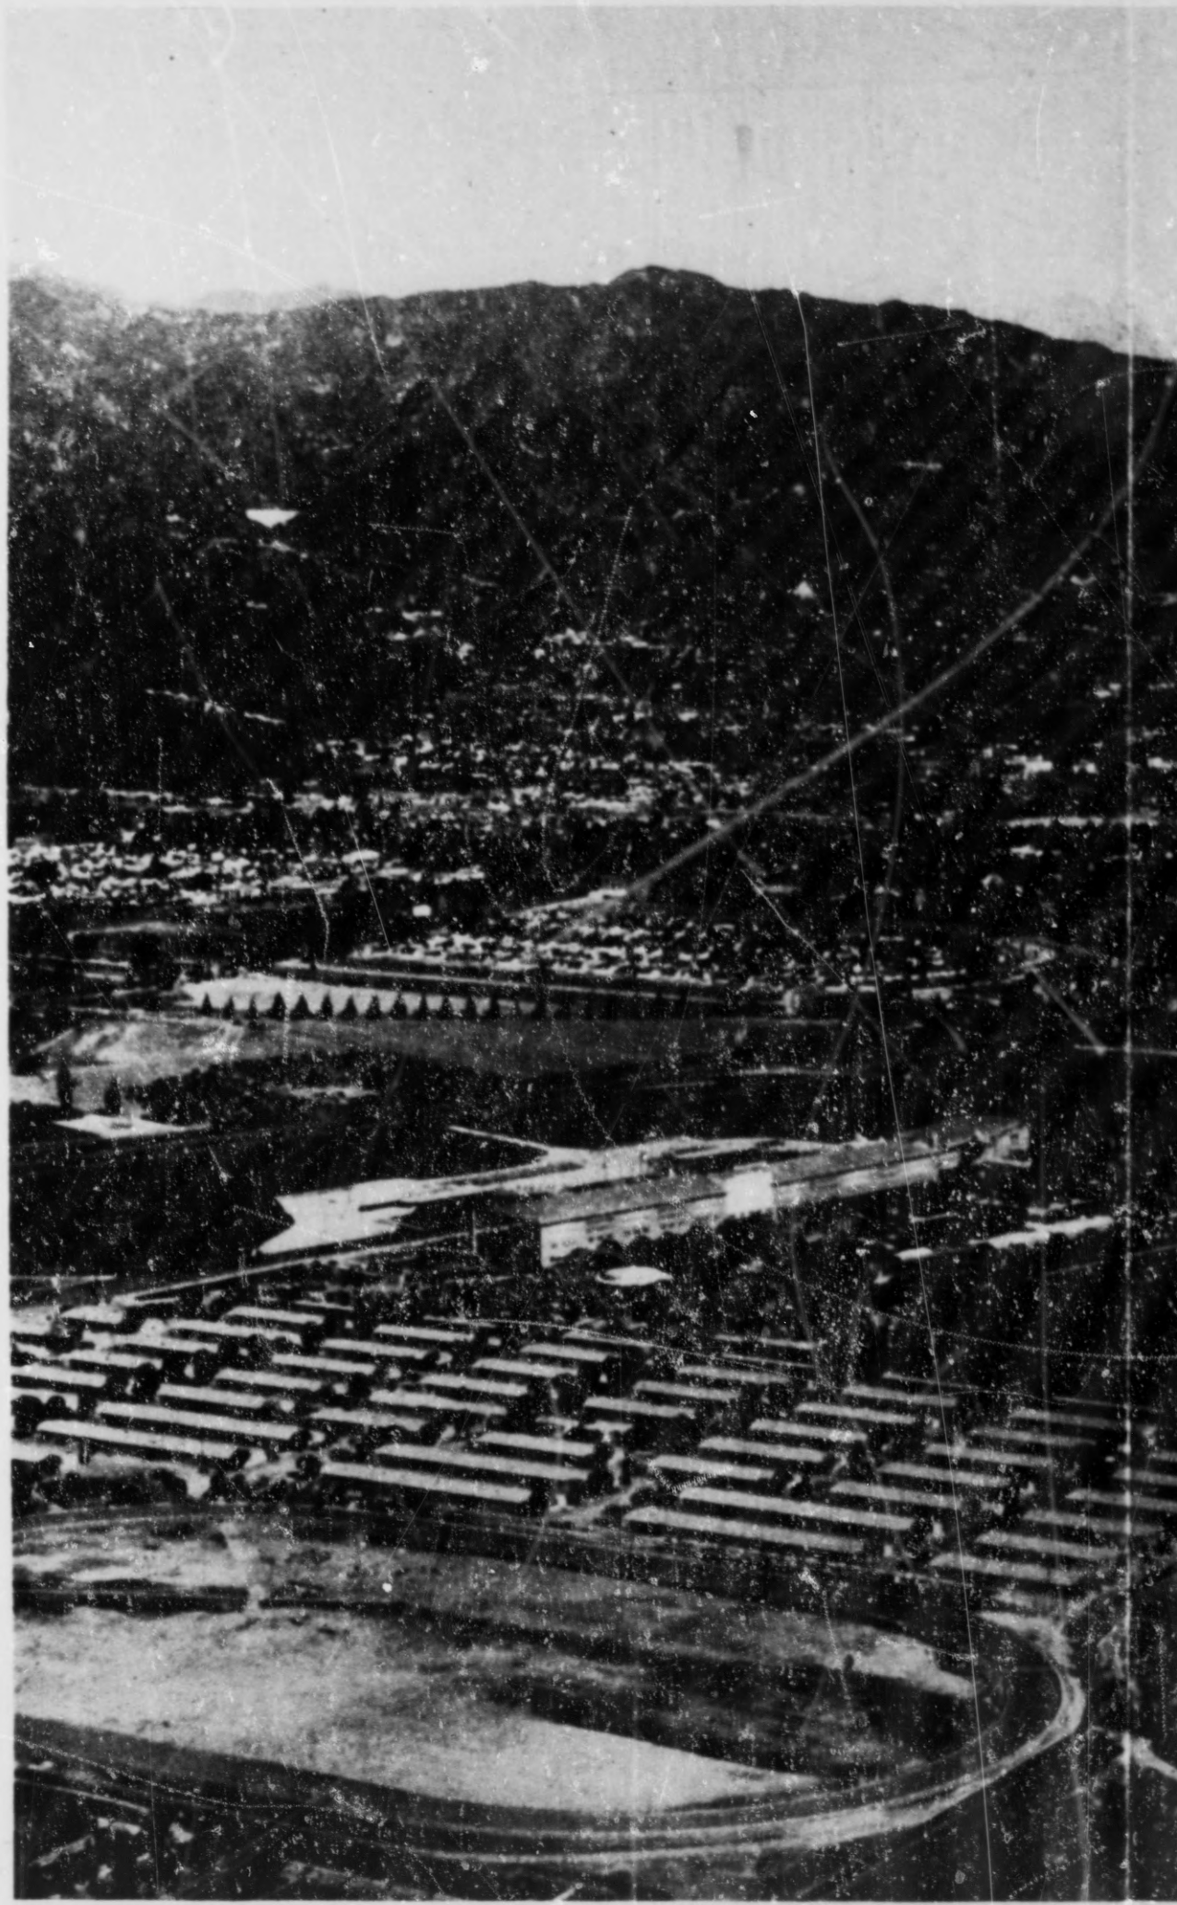
GENERAL REVIEW

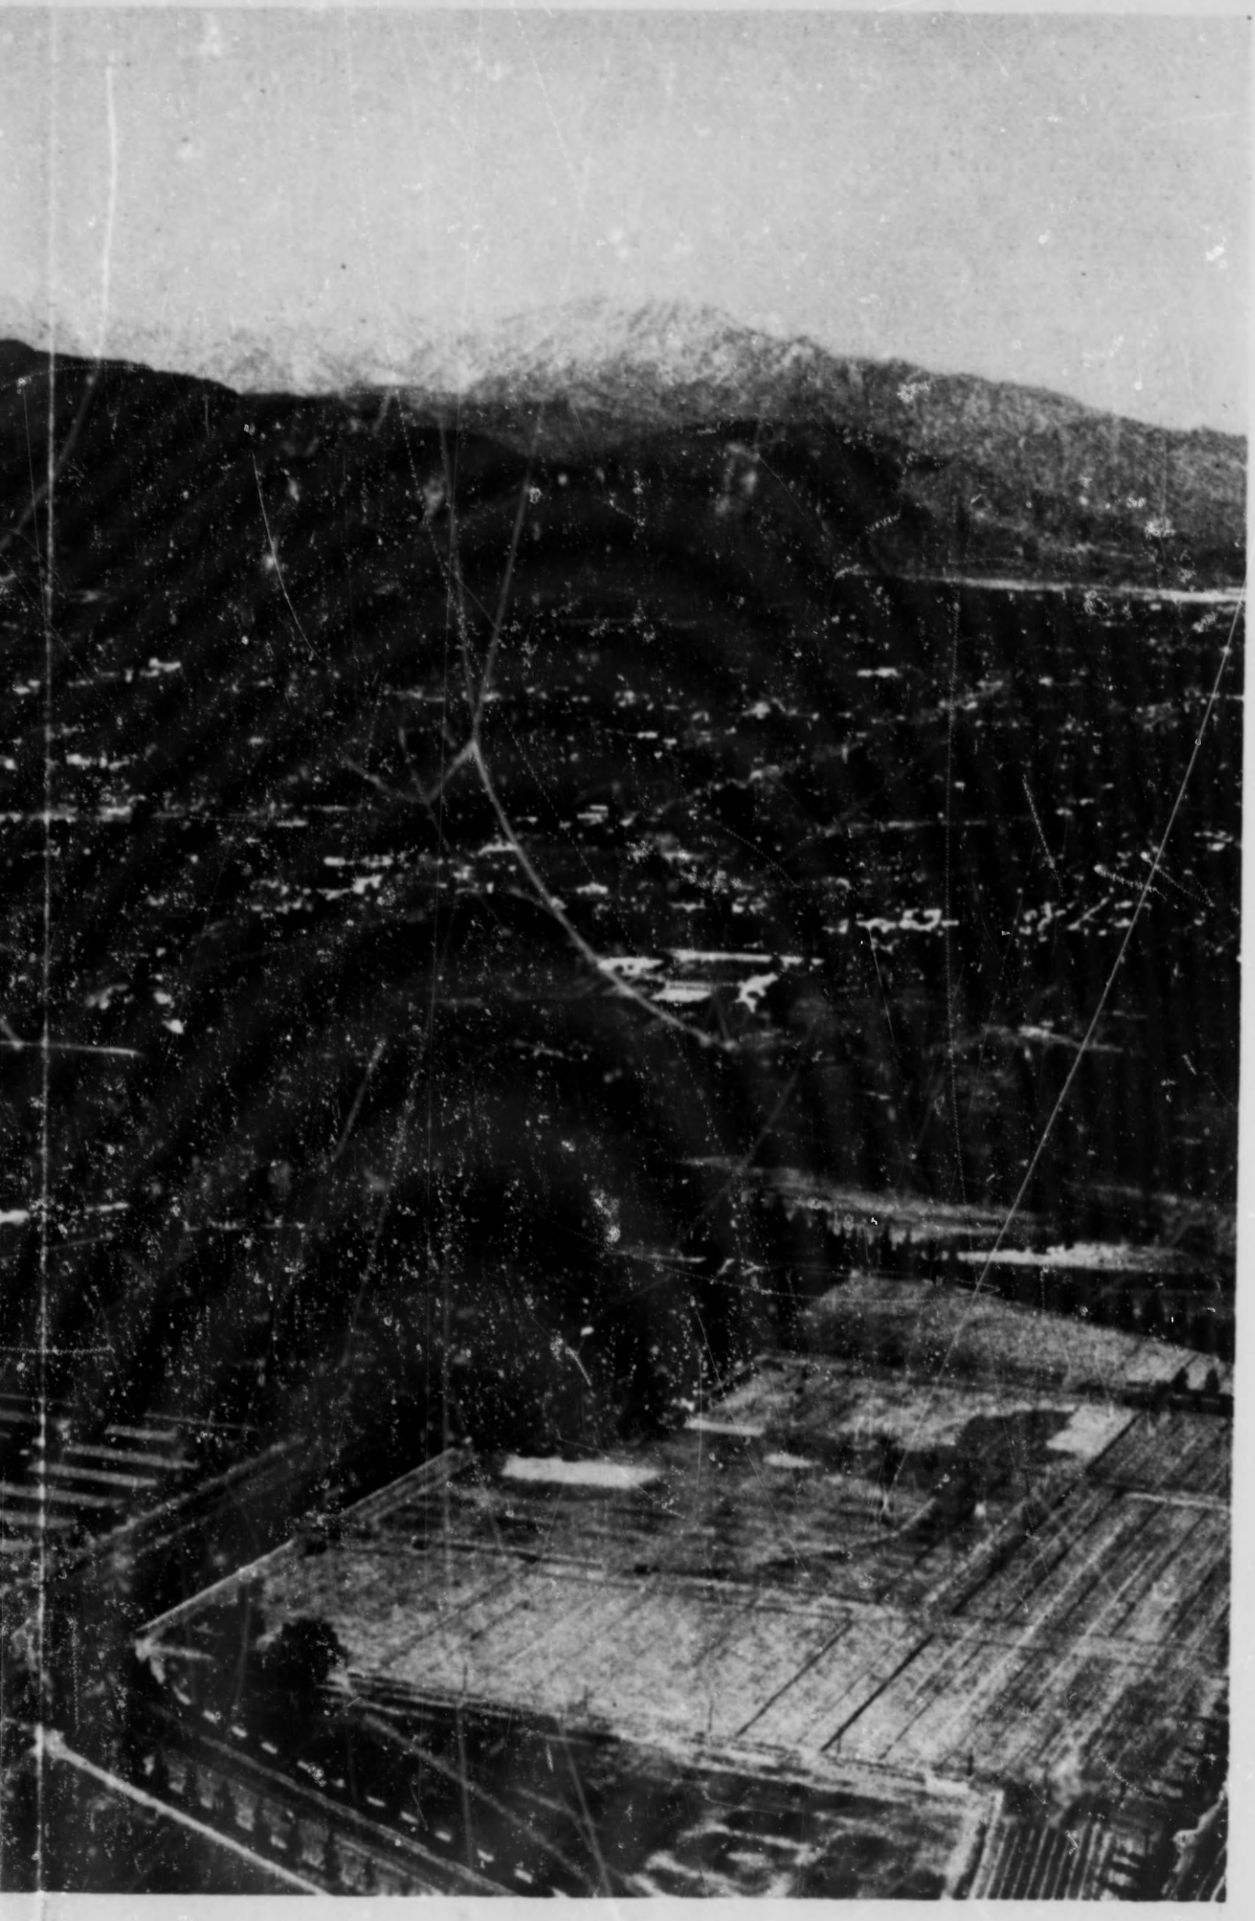
Arcadia was really born when Elias J. Baldwin paid $200,000 for Rancho Santa Anita's 8,000 acres in 1875. Earlier, in 1847, that land was sold for twenty cents an acre. Indeed. Twas a brave new world. But it was Baldwin, the Builder, who created Arcadia.

For to him, this land beneath the Sierra Madres was in itself beautiful, and he made of it the most wonderful of all California Ranchos.

True, Santa Anita's fame to the world lay in its race tracks (the present one is the fifth) and its internationally known racing stables. Baldwin was the only man ever to win the American Derby four times.

But Rancho Santa Anita was incredibly more. It was a vast contribution to California's agriculture and animal husbandry. Here were produced the widest variety of fruits and grains in addition to





thoroughbred horses, the finest of Arabians and Percherons, cattle and hogs, jacks and jennets, and the famous flock of Peafowl whose descendents may be seen today.

Huge reservoirs were built, more than twenty miles of pipe and conduits were lain to carry water to the broad acres. Baldwin had said, when he looked upon this land of the San Gabriel Valley, "This is Paradise."

He left it in 1909, a monument to a man's imagination and energy, and will to enterprise.

If you come to Rancho Santa Anita you will see much that is changed only by time. The Old Adobe, the ornate Coach Barn, the strutting Peacocks, lovely Queen Anne Cottage with its marble steps and "gingerbread ornaments," and the lake of which he was so proud, with its palms and eucalyptus trees.

In January, 1947, 111 acres including the park and its buildings were conveyed to the State of California to be developed into a foremost Botanical Garden and Arboretum.

Today, plans are in the making with Arboretum officials for a Home Talent Pageant and Early California dancing. Activities in the Arboretum will be contingent upon the facilities there.

All this, and more, was once the fabulous Santa Anita, An Empire in the Sun.

Today it is Arcadia.

DUARTE

(Courtesy Chamber of Commerce)

HISTORY

Though Duarte is old in years, numbering its age from 1841 when Andres Duarte was granted his many acres, its life now is essentially that of a fast-growing, fast-moving suburban residential community.

Originally, the rolling hills were given over to grazing and grain, but gradually the abundant water from the San Gabriel Canyon was developed for use and grapes and deciduous fruits dominated the scene. These, in turn, gave way to great, solid blocks of citrus, with Duarte navel oranges famous in many climes.

Shortly after World War 11, under the pressure of new population, Duarte, with its beautiful foothill setting, abundance of mountain water and proximity to large centers, started turning the citrus groves into modern, residential subdivisions, and today the transition is nearly completed.

Duarte, traversed by Highway 66, is filling up with new homes and new citizens and is developing a business district for its 18,500 to 19,000 population with opportunities still existing for many lines of retail business.

The civic and social life of Duarte is growing with the community, and now includes the Chamber of Commerce, Lions, Lionettes, Rotary Clubs, Duarte Citizens Assn, Duarte Woman's Club, American Legion, P.T.A. and other similar groups, Reading Circle, Community Service Council, Community Chest, Boy Scouts, Cub Scouts, Girl Scouts, Brownies, Gra-Y and Hi-Y groups. A county park is completed, and a community center and youth project are being developed by volunteer community effort. The Duarte school system is undergoing a major expansion, which will bring it up to adequate capacity.

Duarte welcomes the new citizens into its life, feeling certain they will enjoy the community and eargerly join in the privilege of helping build a still better community.

POLK'S MONROVIA

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1953-54

Copyright 1954, by R. L. Polk & Co. of California

Some streets in this section were formerly included in Duarte section. The publishers recommend referring to both the Monrovia and Duarte Alphabetical sections for individual residents.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowners or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1953-54

Copyright 1954, by R. L. Polk & Co. of California

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowners or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1953-54

Copyright 1954, by R. L. Polk & Co. of California

Some streets formerly in this section, which are served by Monrovia Post Office, will be found in the Monrovia Householders Guide.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowners or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ● following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

WHY A BUYERS' GUIDE?

★It is customary to include a Buyers' Guide in the City Directory because!!!

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

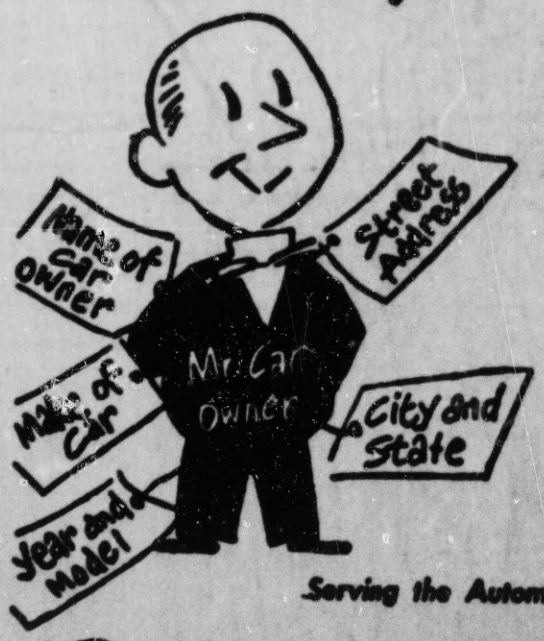
...About Your Car Owner Lists



Whatever information an auto owner puts on his license application appears on the new Polk official car owner registration list, now available to you. Every name on a Polk car owner list is "cleaned" ahead of time. Only names of persons to whom mail can be delivered are compiled for you. Polk Car Owner Lists are not "loaded" with extra names that would waste your time and money in sending out mail, or in making personal calls.

Success or failure of any direct mail advertising program depends on your keeping that list up to date.

★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages

1.—PROMPT SERVICE: Just a phone call for FAST COURTEOUS service. Prompt clearance for escrows.

2.—REASONABLE PRICES: Years of experience and "know how" protect your CLIENTS against padded inspections or repair work.

3.—CUSTOMER SATISFACTION: Our aim is to satisfy ALL PARTIES concerned. Special consideration and discretion on our part, so as not to deter the customer or sale.

4.—LATEST AND BEST MATERIALS: In treating, and repair work as well, you will find our materials and methods to be of exacting standards. We find it OUR BUSINESS to keep abreast of the latest developments that may occur to better our trade.

5.—COMPETITION INVITED: We can't hope to get all the business, so we gladly invite competitive bids. WRITTEN ESTIMATES given on all work.

A STATEMENT
OF ADVERTISING PRINCIPLES

1. **Good Advertising**—aims to inform the consumer and help him to buy more intelligently.

2. **Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500

CONSULTATIONS OR CIRCULATION CONSULTED

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.
